Day 2 classwork:

Project 1 - Hello World!

App.js

// App.js

```
import React from 'react';

import HelloWorld from './HelloWorld';

function App() {

  return (

    <div className="App">

      <HelloWorld />

    </div>

  );

}

export default App;
```

HelloWorld.js

// HelloWorld.js

```
import React from 'react';

const HelloWorld = () => {

  return (
```

```
    <div>

      <h1>Hello World!</h1>

    </div>

  );

};

export default HelloWorld;
```

output:

Hello World!
